

\$27,246.26 was taken in at the gate. After expenses incurred had been deducted a net profit of \$23,635.51 remained to be divided between the regiments.

Production a
"Thriller."

The members of the regiments that participated in the display were coached daily in their individual tasks until the British instructor was satisfied. Trenches were dug, barbed wire entanglements were placed, shell holes were dug and the field prepared in such a manner that the spectators might be given a vivid idea as to the topography of the battle which cost so many lives of our brave Allies. At the close of the production it was pronounced by the spectators as one of the best "thrillers" they had ever witnessed.

Identification
Tags Issued.

Aluminum identification tags were issued to members of the First Field Artillery on September 18, 1917. This was the first unit of Minnesota men to receive this issue of tags which are worn only by troops on overseas service. The tag is about 1¼ inches in length by 1 inch in width, oval in shape, and contains the name, company and regiment of the soldier on one side, with his finger print on the other side. This tag is worn about the neck suspended on a cord.

"Twin City"
Benefit Held.

With the nearing approach of Christmas the thoughts of the home folks turned to their boys overseas. The Minneapolis Journal originated and carried through a monster benefit vaudeville performance in the Minneapolis Auditorium on November 7, 1917. From the receipts of this performance a Christmas gift was purchased and sent to every one of the 1,444 officers and men of the First Field Artillery with the compliments of the people of Minneapolis and St. Paul. In spite of the transportation difficulties existing at that time, these gifts arrived before Christmas day and were distributed to the regiment. Colonel Leach, in the name of his regiment, cabled a short appreciation to the folks at home.

"A Solemn
Occasion."

"This is one of the best things that the folks at home ever did," a letter from one of the members of the regiment read. "The gifts arrived at a time when the men were thinking of the ones at home and of the distance that separated them. Many of the boys were away from home at Christmas for the first time in their lives. It was a solemn, almost religious, ceremony, that opening of the presents. We will never forget that we were not forgotten."

While the Minnesota men in France were being remembered by their friends and relatives in the United States the Minnesota men in training at Camp Cody were also reminded that "the home folks" were not forgetful.

Men at Cody
Remembered.

A carload of delicacies, including dressed meats, was sent to Camp Cody from St. Paul in time to reach there about December 31, 1917. Owing to freight congestion and inclement weather,

the car did not arrive until January 13, 1918. "She was some dinner," said a letter from one of the men in training there. "Although it was late in getting in, that car from the home folks was the most popular thing that had been received in Camp Cody since our arrival there. The cooks took keen delight in preparing the dinner 'like mother would have made!'"

A freight due bill of \$112 was presented to the regiment at Camp Cody and a telegram of inquiry was sent to the Adjutant General's office as to who should be held responsible for the freight charges. Funds were sent and the car was released.

Lieutenant Colonel William H. Donohue returned to Minneapolis on September 14, 1918, on a few days' leave preparatory to going to Camp Lewis to supervise and take over the command of a new regiment of field artillery. On the evening of September 15 he addressed a meeting of the Home Folks Association in the Minneapolis Auditorium. Every seat was occupied and the appearance of "Colonel Bill" was the signal for a demonstration which lasted several minutes.

Colonel
"Bill"
Returns.

Colonel Donohue had brought back scores of messages to the home folks from the Minneapolis and St. Paul members of the one hundred and fifty-first (First Minnesota) Field Artillery, and he utilized this opportunity to assure the folks at home of the excellent care and attention that their boys were receiving in France.

"There is nothing that the boys desire except more action," he said. "While, of course, the 151st has seen much action, they are the type of men that is representative of the American soldier—action, more action, and still more action is what pleases them. They are eating regularly and the quality of the food is excellent. They are well clothed, their medical attention is of the best; in fact, there is nothing that they need or desire except letters, more letters, and still more letters. You may desire to keep the home fires burning, but don't forget that the letters that you send to the men overseas are feeding that far more important fire in which disregard for civilization is being consumed."

The roster of names of men in the military units which were taken into federal service are as of August 31, 1917. Any additions to or discharges from these units after that date did not affect this list.
